## CHAPTER 11. TAXATION.

### ARTICLE 8. LEVIES.

#### **§11-8-6f. Regular school board levy rate; creation and implementation of Growth County School Facilities Act; creation of Growth County School Facilities Act Fund.**

1 (a) Notwithstanding any other provision of law except §11-8-6f(c) of this code, where any  
2 annual appraisal, triennial appraisal, or general valuation of property would produce a statewide  
3 aggregate assessment that would cause an increase of two percent or more in the total property  
4 tax revenues that would be realized were the then current regular levy rates of the county boards  
5 of education to be imposed, the rate of levy for county boards of education shall be reduced  
6 uniformly statewide and proportionately for all classes of property for the forthcoming tax year so  
7 as to cause the rate of levy to produce no more than 102 percent of the previous year's projected  
8 statewide aggregate property tax revenues from extending the county board of education levy  
9 rate, unless subsection (b) of this section is complied with. The reduced rates of levy shall be  
10 calculated in the following manner: (1) The total assessed value of each class of property as it is  
11 defined by section five of this article for the assessment period just concluded shall be reduced  
12 by deducting the total assessed value of newly created properties not assessed in the previous  
13 year's tax book for each class of property; (2) the resulting net assessed value of Class I property  
14 shall be multiplied by .01; the value of Class II by .02; and the values of Classes III and IV, each  
15 by .04; (3) total the current year's property tax revenue resulting from regular levies for the boards  
16 of education throughout this state and multiply the resulting sum by one hundred two percent:  
17 *Provided*, That the 102 percent figure shall be increased by the amount the boards of education's  
18 increased levy provided for in subsection (b), section eight, article one-c of this chapter; (4) divide

19 the total regular levy tax revenues, thus increased in subdivision (3) of this subsection, by the  
20 total weighted net assessed value as calculated in subdivision (2) of this subsection and multiply  
21 the resulting product by 100; the resulting number is the Class I regular levy rate, stated as cents-  
22 per-100 of assessed value; and (5) the Class II rate is two times the Class I rate; Classes III and  
23 IV, four times the Class I rate as calculated in the preceding subdivision.

24 An additional appraisal or valuation due to new construction or improvements, including  
25 beginning recovery of natural resources, to existing real property or newly acquired personal  
26 property shall not be an annual appraisal or general valuation within the meaning of this section,  
27 nor shall the assessed value of the improvements be included in calculating the new tax levy for  
28 purposes of this section. Special levies shall not be included in any calculations under this section.

29 (b) After conducting a public hearing, the Legislature may, by act, increase the rate above  
30 the reduced rate required in subsection (a) of this section if an increase is determined to be  
31 necessary.

32 (c) Beginning with the 2020 fiscal year and the 2019 tax year, §11-8-6f(a) and (b) of this  
33 code shall expire and the regular levy rates for the county boards of education shall be the  
34 following: (1) For Class I property, 19.4 cents per \$100; (2) for Class II property, 38.8 cents per  
35 \$100; and (3) for Class III and Class IV property, 77.6 cents per \$100: Provided, That annually  
36 county boards of education may increase their regular levy rates through a majority vote of their  
37 members up to the sum of the levy rates set forth in subdivisions (1), (2), and (3), section six-c of  
38 this article for each class of property, which are: (1) For Class I property, 22.95 cents per \$100;  
39 (2) for Class II property, 45.9 cents per \$100; and (3) for Class III and Class IV property, 91.8  
40 cents per \$100.

41 (e) (d) The State Tax Commissioner shall report to the Joint Committee on Government  
42 and Finance and the Legislative Oversight Commission on Education Accountability by March 1  
43 of each year on the progress of assessors in each county in assessing properties at the  
44 Constitutionally required 60 percent of market value and the effects of increasing the limit on the

45 increase in total property tax revenues set forth in this section to two percent.

46       ~~(d)~~ *(e) Growth County School Facilities Act. — Legislative findings.* —

47       The Legislature finds and declares that there has been, overall, a statewide decline in  
48 enrollment in the public schools of this state; due to this decline, most public schools have ample  
49 space for students, teachers, and administrators; however, some counties of this state have  
50 experienced significant increases in enrollment due to significant growth in those counties; that  
51 those counties experiencing significant increases do not have adequate facilities to accommodate  
52 students, teachers, and administrators. Therefore, the Legislature finds that county boards of  
53 education in those high-growth counties should have the authority to designate revenues  
54 generated from the application of the regular school board levy due to new construction or  
55 improvements placed in a Growth County School Facilities Act Fund be used for school facilities  
56 in those counties to promote the best interests of this state's students.

57       (1) For the purposes of this subsection, "growth county" means any county that has  
58 experienced an increase in second month net enrollment of 50 or more during any three of the  
59 last five years, as determined by the state Department of Education.

60       (2) The provisions of this subsection shall only apply to any growth county, as defined in  
61 subdivision (1) of this subsection, that, by resolution of its county board of education, chooses to  
62 use the provisions of this subsection.

63       (3) For any growth county, as defined in subdivision (1) of this subsection, that adopts a  
64 resolution choosing to use the provisions of this subsection, pursuant to subdivision (2) of this  
65 subsection, assessed values resulting from additional appraisal or valuation due to new  
66 construction or improvements to existing real property shall be designated as new property values  
67 and identified by the county assessor. The statewide regular school board levy rate as established  
68 by the Legislature shall be applied to the assessed value designated as new property values and  
69 the resulting property tax revenues collected from application of the regular school board levy rate  
70 shall be placed in a separate account designated as the Growth County School Facilities Act

71 Fund. Revenues deposited in the Growth County School Facilities Act Fund shall be appropriated  
72 by the county board of education for construction, maintenance or repair of school facilities.  
73 Revenues in the fund may be carried over for an indefinite length of time and may be used as  
74 matching funds for the purpose of obtaining funds from the School Building Authority or for the

## CHAPTER 18. EDUCATION.

### ARTICLE 1. DEFINITIONS; LIMITATIONS OF CHAPTER; GOALS FOR EDUCATION.

#### §18-1-5. Non-severability.

1       If any provision of this Act, passed during the regular session, 2019, is held invalid, then,  
2     notwithstanding any other provision of law, every other provision of this Act shall be deemed  
3     invalid and have no further force and effect.

### ARTICLE 2E. HIGH QUALITY EDUCATIONAL PROGRAMS.

### ARTICLE 5. COUNTY BOARD OF EDUCATION.

#### §18-5-16. Student transfers; definitions; legislative findings; appeals; calculating net enrollment; fees for transfer.

1       (a) County districts and school attendance. — Establishment of attendance zones within  
2     counties. — The county board may divide shall establish attendance zones within the county into  
3     such districts as are necessary to determine to designate the schools the that its resident students  
4     of its county shall attend. Upon the written request of any parent or guardian, or person legally  
5     responsible for any student, or for reasons affecting the best interests of the schools, the  
6     superintendent may transfer students from one school to another within the county. Any  
7     aggrieved person may appeal the decision of the county superintendent to the county board, and  
8     the decision of the county board shall be is final.

9       (b) Transfers between counties; legislative findings —

10       (1) Transfers of students from one county to another may be made by the county board of  
11     the county in which the student desiring to be transferred resides. The transfer shall be subject to

12 the approval of both the board of the county in which the student resides and the board to which  
13 the student wishes to be transferred.

14 (2) *Legislative findings.* Over the past several years, counties have been forced to close  
15 a number of schools because of declining student enrollment. School officials predict that an  
16 additional eighteen percent loss in enrollment may occur between 2002 and 2012. This continued  
17 decrease in the number of students enrolled in the public schools of the state may result in more  
18 instances of consolidation which will increase the problem of long bus rides for students if they  
19 remain in a school in their county of residence.

20 Therefore the Legislature makes the following findings:

21 (A) County lines may impede the effective and efficient delivery of education services;

22 (B) Students often must endure long bus rides to a school within their county of residence  
23 when a school in an adjacent county is a fraction of the distance away;

24 (C) The wishes of parents or guardians to have their children transferred to a county other  
25 than their county of residence should be considered by the county boards; and

26 (D) Where counties cannot agree, it is necessary to establish a process to determine when  
27 transfers are appropriate.

28 (3) The state board shall establish a process whereby a parent or guardian of a student  
29 may appeal the refusal of a county board to enter into an agreement to transfer or accept the  
30 transfer of the student.

31 (A) The process shall designate the state superintendent to hear the appeal. In  
32 determining whether to overturn a decision of a county board, the state superintendent shall  
33 consider such factors as the following:

34 (i) Travel time for the student;

35 (ii) Impact on levies or bonds;

36 (iii) Other financial impact on the county of residence; and

37 (iv) Such other factors as the state superintendent may determine.

38       (B) If, during the appeal process, the state superintendent discovers that the education  
39       and welfare of students in the transferring county could be enhanced, the state superintendent  
40       may direct that students may be permitted to attend a school in another county.

41       (C) If multiple appeals are received from the same geographical area of a county, the state  
42       superintendent may impose on the receiving county restrictions including, but not limited to,  
43       requiring the receiving county to accept all students in that geographical area of the sending  
44       county who wish to transfer to the receiving county.

45       (D) If a student is transferred on either a full-time or a part-time basis without the  
46       agreement of both boards by official action as reflected in the minutes of their respective meetings  
47       and if the student's parent or guardian fails to appeal or loses the appeal under the process  
48       established in subdivision (3) of this subsection, the student shall be counted only in the net  
49       enrollment of the county in which the student resides.

50       (4) If, after two county boards have agreed to a transfer arrangement for a student, that  
51       student chooses to return to a school in his or her county of residence after the second month of  
52       any school year, the following shall apply:

53       (A) The county of residence may issue an invoice to the county from which the student  
54       transferred for the amount, determined on a pro rata basis, that the county of residence otherwise  
55       would have received under the state basic foundation program established in article nine-a [§§  
56       18-9A-1 et seq.] of this chapter; and

57       (B) The county from which the student transferred shall reimburse the county of residence  
58       for the amount of the invoice.

59       (c) *Transfers between high schools.* In any county where a high school is maintained,  
60       but topography, impassable roads, long bus rides, or other conditions prevent the practicable  
61       transportation of any students to such high school, the board may transfer them to a high school  
62       in an adjoining county. In any such case, the county boards may enter into an agreement providing  
63       for the payment of the cost of transportation, if any, of the students.

64        (1) Definitions. – For the purposes of this section, unless a different meaning clearly  
65 appears from the context:

66            “Nonresident student” means a student who resides in this state and who is enrolled in or  
67 is seeking enrollment in a school district other than the school district in which the student resides.

68            “Open enrollment” means a policy adopted and implemented by a county board to allow  
69 nonresident students to enroll in any school within the district pursuant to subsection (a) of this  
70 section. Open enrollment is distinct from a mutual agreement of two county boards regarding  
71 mass transfer of students, as contemplated in §18-5-13(f)(1)(C) of this code.

72        (2) Enrollment policies. – County boards may establish and implement an open enrollment  
73 policy without charging tuition and without obtaining approval from the board of the county in  
74 which a student resides and transfers. These policies shall clearly articulate any admission  
75 criteria, application procedures, transportation provisions, timelines for open enrollment periods,  
76 and restrictions on transfers due to building capacity constraints.

77            (A) A county board may give enrollment preference to:

78              (i) Siblings of students already enrolled through the open enrollment policy;

79              (ii) Secondary students who have completed tenth grade and, due to family relocation,  
80 become nonresident students, but express the desire to remain in a specific school to complete  
81 their education;

82              (iii) Students who are children, grandchildren, or legal wards of employees;

83              (iv) Students whose legal residences, though geographically within another county, are  
84 more proximate to a school within the receiving county, whether calculated by miles or  
85 transportation time; and

86              (v) Students who reside in a portion of a county where topography, impassable roads, long  
87 bus rides, or other conditions prevent the practicable transportation of the student to a school  
88 within the county, and a school within a contiguous county is more easily accessible.

89            (B) A county must comply with all enrollment requirements for children who are in foster

care or who meet the definition of unaccompanied youth prescribed in the McKinney-Vento Homeless Assistance Act (42 U.S.C. §11434a(6)).

(C) The county board for the county educating the nonresident student may provide an adequate means of transportation to nonresident students when students have complied with the procedure for obtaining authorization to attend school outside their county of residence.

(i) County boards of education are not required to uniformly provide nonresident student transportation, and may consider whether a nonresident student meets the eligibility criteria for free or reduced price lunches and milk established within the Richard B. Russell National School Lunch Act (42 U.S.C. §1758).

(ii) The county board for the county educating the nonresident student shall provide transportation to and from the school of attendance, or to and from an agreed pickup point on a regular transportation route, or for the total miles traveled each day for the nonresident student to reach the school of enrollment if the nonresident student with disabilities has an individualized education program that specifies that transportation is necessary for fulfillment of the program.

(3) *Appeal.* – The state board of education shall establish a process whereby a parent or guardian of a student may appeal the refusal of a county board to accept the transfer of the student. If during the appeal process, the State Superintendent discovers that the education and the welfare of the student could be enhanced, the State Superintendent may direct that the student may be permitted to attend a school in the receiving county.

(4) *Net enrollment.* – For purposes of net enrollment as defined in §18-9A-2 of this code, whenever a student is transferred on a full-time basis from one school district to another district pursuant to the provisions of this section, the county to which the student is transferred shall include the student in its net enrollment.

(A) If, after transferring to another county, a student chooses to return to a school in his or her county of residence after the second month of any school year, the following applies:

(i) The county of residence may issue an invoice to the county from which the student

116     transferred for the amount, determined on a pro rata basis, that the county of residence otherwise  
117     would have received under the state basic foundation program established in § 18-9A-1 et seq.  
118     of this code; and

119                 (ii) The county from which the student transferred shall reimburse the county of residence  
120     for the amount of the invoice.

121                 (c) Transfers between high schools. — In any county where a high school is maintained,  
122     but topography, impassable roads, long bus rides, or other conditions prevent the practicable  
123     transportation of any students to such high school, the board may transfer them to a high school  
124     in an adjoining county. In any such case, the county boards may enter into an agreement providing  
125     for the payment of the cost of transportation, if any, of the students.

126                 (d) (b) Transfers between states. — Transfer of students from this state to another state  
127     shall be upon such terms, including payment of tuition, as shall be mutually agreed upon by the  
128     board of the transferring receiving county and the authorities of the school to or district from which  
129     the transfer is made.

130                 (e) (c) No parent, guardian, or person acting as parent or guardian shall be required to  
131     pay for the transfer of a student or for the tuition of the student after the transfer when such the  
132     transfer is carried out under the terms of this section.

133                 (d) The amendments to this section during the 2019 regular session of the Legislature  
134     shall be effective for school years beginning on or after July 1, 2019, and the provisions of this  
135     section existing immediately prior to the 2019 regular session of the Legislature remain in effect  
136     for school years beginning prior to July 1, 2019.

4           CS for SB 451  
4       to transfer any such pupil or pupils on a part-time or full-time basis from one school district to  
5       another school district within the state: *Provided*, That the boards of education of both the  
6       transferor and the transferee districts agree to the same by official action of both boards as  
7       reflected in the minutes of their respective meetings.

8           (c) Any pupil attending a school in a district of this state adjacent to the district of residence  
9       during the school year one thousand nine hundred eighty-four--eighty-five, is authorized to  
10      continue such attendance in the adjacent district, and, upon written request therefor by the parent  
11      or guardian, any person who is entitled to attend the public schools of this state and who resides  
12      in the same household and is a member of the immediate family of such pupil is authorized to  
13      enroll in such adjacent district. The transferor and transferee school districts shall effectuate any  
14      transfer herein authorized in accordance with the provisions of this section.

15           (d) Whenever a pupil is transferred from one school district to another district on a full-  
16      time or part-time basis, the board of Education of the school district in which the pupil is a bona  
17      fide resident shall pay to the board of Education of the school district to which the pupil is  
18      transferred a tuition that is agreed upon by both such boards. Tuition for each full-time pupil shall  
19      not exceed the difference between the state aid per pupil received by the county to which the

7     day in excess of certain minimums to apply this equivalent instructional time to cancel time lost  
8     due to necessary closures and other purposes designed to improve instruction. The use of  
9     equivalent time gained to cancel days lost and the use of alternative methods to deliver instruction  
10    on canceled days as defined in §18-5-45 of this code constitute instructional days for the purposes  
11    of meeting both the 200 day minimum employment term and the 180 day minimum separate  
12    instructional day requirements. The Legislature intended with the enactment of these provisions  
13    regarding equivalent instructional time and alternative instructional delivery to help improve  
14    instruction and lessen the disruption to the planned school calendar if rescheduling and adding

1       (a) There is hereby created the West Virginia Public Charter School Commission which  
2 shall report directly to and be responsible to the state board, separate from the Department of

46       (e) A member of the Public Charter School Commission may be removed from office by

47     the Governor, President of the Senate, or Speaker of the House of Delegates, as applicable, for  
48     official misconduct, incompetence, neglect of duty, or gross immorality. A member may also be  
49     removed if the member's personal incapacity renders the member incapable or unfit to discharge  
50     the duties of the office or if the member is absent from a number of meetings of the board as  
51     determined and specified by the board in its bylaws. Whenever an appointed member vacancy  
52     on the Public Charter School Commission exists, the Governor, President of the Senate, or  
53     Speaker of the House of Delegates, as applicable, shall appoint a member for the remaining

**§18-9A-12. County basic foundation; total basic state aid allowance.**

1       (a) The basic foundation program for each county for the fiscal year shall be the sum of  
2 the amounts computed in accordance with the provisions of sections four, five, six, seven, eight,

3 nine, and ten of this article. On the first working day of July in each year, the State Board shall  
4 determine the basic foundation program for each county for that fiscal year. Data used in the  
5 computations relating to net and adjusted enrollment, and the number of professional educators,  
6 shall be for the second month of the prior school term. Transportation expenditures used in these  
7 computations shall be for the most recent year in which data are available. The allocated state  
8 aid share of the county's basic foundation program shall be the difference between the cost of its  
9 basic foundation program and the county's local share as determined in §18-9A-11 of this code  
10 except as provided in subsection (b) of this section: Provided, That for all years after 2018, in  
11 calculating the allocated state aid share of the county's basic foundation program, when subtracting  
12 the amount of the county's local share, if the county's local share as determined in §18-9A-11 of this  
13 code is greater than the county's local share was determined to be for fiscal year 2015-2016, then the  
14 allocated state aid share of the county's basic foundation program shall be the difference between the  
15 cost of its basic foundation program and the county's 2015-2016 determined local share.

16 (b) The allocated state aid share shall be adjusted in the following circumstances in the  
17 following manner: *Provided, That* prior to such adjustment, the State Tax Commissioner shall  
18 provide the State Board, by January 15 of each year, a certified listing of those counties in which  
19 such adjustment shall be made pursuant to this subsection, together with the amount of revenue  
20 which will not be available to each county board in the ensuing fiscal year as a result of the  
21 circumstance:

22 (1) In those instances where the local share as computed under §18-9A-11 of this code is  
23 not reflective of local funds available because the county is under a final court order, or a final  
24 decision of a board of assessment appeals under §11-3-24b of this code, to refund or credit  
25 property taxes paid in prior years, the allocated state aid share shall be the county's basic  
26 foundation program, minus the local share as computed under §18-9A-11 of this code, plus the  
27 amount of property tax the county is unable to collect or must refund due to the final court order  
28 or final decision of a board of assessment appeals: *Provided, That* said adjustment shall not be

29 made or shall only be made proportionately when the Legislature fails to fund, or funds only in  
30 part, the public school basic foundation support plan state share at a level sufficient to cover the  
31 reduction in state share: *Provided, however,* That nothing herein provided shall be construed to  
32 require or mandate any level of funding by the Legislature.

33 (2) In those instances where the local share as computed under §18-9A-11 of this code is  
34 not reflective of local funds available because the county is collecting tax based upon an assessed  
35 value which is less than that determined by the tax commissioner in the most recent published  
36 survey of property valuations in the state due to an error in the published survey, which error is  
37 certified to by the tax commissioner, the allocated state aid share shall be the county's basic  
38 foundation program, minus the local share as computed under §18-9A-11 of this code, plus the  
39 amount of property tax the county is unable to collect based on differences in the assessed  
40 valuation between those in the most recent published survey of valuation and the corrected  
41 assessed value actually levied upon by the county: *Provided,* That said adjustment shall not be  
42 made or shall only be made proportionately when the Legislature fails to fund or funds only in part  
43 the public school basic foundation support plan state share at a level sufficient to cover the  
44 reduction in state share: *Provided, however,* That nothing herein provided shall be construed to  
45 require or mandate any level of funding by the Legislature.

46 (3) In instances where a county is unable to collect property taxes from a taxpayer during  
47 the pendency of any court proceeding, the allocated state aid share shall be the county's basic  
48 foundation program minus the local share as computed under §18-9A-11 of this code, plus the  
49 amount the county is unable to collect as a result of the pending court proceedings as certified by  
50 the tax commissioner: *Provided,* That the county is required to reimburse the amount of allocated  
51 state aid share attributable to the amount of property tax it later receives upon completion of court  
52 proceedings, which shall be paid into the General Revenue Fund of the state: *Provided, however,*  
53 That said adjustment shall not be made or shall only be made proportionately when the  
54 Legislature fails to fund or funds only in part the public school basic foundation support plan state

55 share at a level sufficient to cover the reduction in state share: *Provided further,* That nothing  
56 herein provided shall be construed to require or mandate any level of funding by the Legislature.  
57 (c) The allocated state aid share shall be adjusted in any county receiving payments or  
58 contributions in lieu of property taxes. In instances where a county receives payments or  
59 contributions in lieu of property taxes, the allocated state aid share shall be the county's basic  
60 foundation program minus the local share as computed under §18-9A-11 of this code, plus any  
61 amounts added pursuant to subsection (b) of this section minus the payments or contributions in  
62 lieu of property taxes which are distributed by the sheriff to the county board of education. In  
63 determining the amount of such contribution or payment in lieu of taxes, each county commission  
64 shall provide to the State Tax Commissioner, by January 1 of each year, the total amount of such  
65 payments or contributions paid to the county and the proportion of the total amount that has been  
66 or will be distributed to the county board of education. The State Tax Commissioner then shall  
67 provide the State Board, by January 15 of each year, a certified listing of those counties in which  
68 an adjustment pursuant to this section shall be made, together with the amount of revenue which  
69 will be available to each county board in the ensuing fiscal year as a result of contribution or  
70 payment in lieu of taxes.

71 (d) Total basic state aid to the county shall be the computed state share of basic foundation  
72 support. After such computation is completed, the State Board shall immediately certify to each  
73 county board the amount of state aid allocated to the county for that fiscal year, subject to any  
74 qualifying provisions of this article.

3 (1) The treasurer shall maintain an updated list of participating schools and shall ensure  
4 that the list is publicly available through various sources, including the Internet.

5 (2) The treasurer shall provide parents with a written explanation of the allowable uses of  
6 ESA funds, the responsibilities of parents, the duties of the treasurer and the role of any private  
7 financial management firms or other private organizations that the treasurer may contract with to  
8 administer the ESA Program or any aspect of the ESA Program.

9 (3) The treasurer shall ensure that parents of students with a disability receive notice that  
10 participation in the ESA Program is a parental placement under 20 U.S.C. § 1412 of the  
11 Individuals with Disabilities Education Act (IDEA) along with an explanation of the rights that  
12 parentally placed students possess under (IDEA) and any applicable state laws and regulations.

13 (4) The treasurer shall contract with private organizations to administer the ESA Program.  
14 This includes, but is not limited to, private financial management firms to manage ESAs.

15 (5) The treasurer may deduct an amount from education savings accounts to cover the  
16 costs of administering the ESA Program, up to a maximum of five percent annually in the first two

17 years of the ESA Program and up to a maximum of three percent annually thereafter.

18 (6) The reasurer shall implement or contract with a private organization to implement a

19 commercially viable, cost effective, and parent-friendly system for payment for services from

20 ESAs to education service providers by electronic or online funds transfer and by debit card. The

21 Treasurer shall not adopt a system that relies exclusively on requiring parents to be reimbursed

22 for out-of-pocket expenses, but rather shall provide maximum flexibility to parents by facilitating

23 direct payments to education service providers as well as requests for preapproval of and

24 reimbursements for qualifying expenses, including expenses pursuant to §18-31-3(d)(15) of this

25 code.

26 (7) The treasurer shall also seek to implement a commercially viable, cost-effective, and

27 parent-friendly system for publicly rating, reviewing, and sharing information about education

28 service providers, ideally as part of the same system that facilitates the electronic or online funds

29 transfers so as to create a one-stop-shop for parents and ESA students.

30 (8) If an education service provider requires partial payment of tuition or fees prior to the

31 start of the academic year to reserve space for an ESA student admitted to the education service

32 provider, such partial payment may be paid by the treasurer prior to the start of the school year in

33 which the ESA is awarded, and deducted in an equitable manner from subsequent ESA deposits

34 to ensure adequate funds remain available throughout the school year; but if an ESA student

35 decides not to use the education service provider, the partial reservation payment must be

36 returned to the treasurer by such education service provider and credited to the student's ESA.

37 (9) The treasurer shall continue making deposits into a student's ESA until:

38 (A) The treasurer determines that the ESA student is no longer an eligible student;

39 (B) The treasurer determines that there was substantial misuse of the funds in the ESA;

40 (C) The parent or ESA student withdraws from the ESA Program;

41 (D) The ESA student enrolls full-time in a public school; or

42 (E) The ESA student graduates from high school.

43                   (10) The treasurer shall have the authority to conduct or contract for the auditing of  
44 individual ESAs, and shall, at a minimum, conduct random audits of ESAs on an annual basis.

45                   (11) The treasurer shall have the authority to make any parent or ESA student ineligible  
46 for the ESA Program in the event of intentional and substantial misuse of ESA funds.  
47                   (A) The treasurer shall create procedures to ensure that a fair process exists to determine  
48 whether an intentional and substantial misuse of ESA funds has occurred.  
49                   (B) The treasurer shall have the authority to refer suspected cases of intentional and  
50 substantial misuse of ESA funds to the Attorney General for investigation if evidence of fraudulent  
51 use of ESA funds is obtained.  
52                   (C) A parent or ESA student may appeal the treasurer's decision to make a parent or ESA  
53 student ineligible for the ESA Program.

54                   (12) The treasurer may bar an education service provider from accepting payments from  
55 ESAs if the Treasurer determines that the education service provider has:  
56                   (A) Intentionally and substantially misrepresented information or failed to refund any  
57 overpayments in a timely manner; or  
58                   (B) Routinely failed to provide students with promised educational goods or services.  
59                   (13) The treasurer shall create procedures to ensure that a fair process exists to determine  
60 whether an education service provider may be barred from receiving payment from ESAs.  
61                   (A) If the treasurer bars an education service provider from receiving payments from  
62 ESAs, it shall notify parents and ESA students of its decision as quickly as possible.  
63                   (B) Education service providers may appeal the Treasurer's decision to bar them from  
64 receiving payments from ESAs.  
65                   (14) The treasurer may accept gifts and grants from any source to cover administrative  
66 costs, to inform the public about the ESA Program, or to fund additional ESAs.  
67                   (15) The treasurer may adopt rules and policies that are not inconsistent with this article  
68 and that are necessary for the administration of this article, including:

69           (A) Establishing or contracting for the establishment of an online anonymous fraud  
70 reporting service;

71           (B) Establishing an anonymous telephone hotline for fraud reporting;

72           (C) Policies that require a surety bond for education service providers receiving more than  
73 \$100,000 in ESA funds;

74           (D) Procedures for refunding payments from education service providers back to ESAs;  
75 and

76           (E) Procedures for entering into reciprocal agreements with other state ESA agencies or  
77 entities, whether public or private, to recognize and allow education service providers approved  
78 in other states to receive payments from ESAs under this article.

79           (16) Any rules or policies adopted by the treasurer should avoid excessive bureaucracy  
80 and overly prescriptive mandates and instead focus on easing parental involvement and  
81 encouraging education service providers to provide parents and ESA students with a broad array  
82 of educational options.

**§18-31-6. Parent Review Committee.**

1           (a) There is created the Parent Review Committee to assist the treasurer in determining  
2 whether questionable expenditures meet the requirements to be considered qualifying expenses  
3 to educate the ESA student pursuant to §18-31-3(d) of this code, and to provide recommendations  
4 to the treasurer about how to implement, administer, and improve the ESA Program.

5           (b) (1) The Parent Review Committee:

6           (A) Consists of seven members who are parents of ESA students and represent no fewer  
7 than four counties in the state; and

8           (B) Shall be appointed by the State Treasurer and serve at the State Treasurer's pleasure  
9 for one calendar year and may be reappointed; and

10           (2) The State Treasurer, or the director's designee, serves as the nonvoting chair of the  
11 committee.

12       (c) The treasurer may request the committee to meet, in person or virtually, to determine  
13 whether an expenditure of ESA funds is or was a qualifying expense to educate an ESA student  
14 pursuant to §18-31-3(d) of this code. The committee may deny or approve questionable  
15 expenditures by a majority vote.

16       (d) The treasurer may also request the committee to meet, in person or virtually, to review  
17 appeals of education service provider denials pursuant to §18-31-7 of this code, and to provide a  
18 recommendation to the treasurer as to whether an education service provider should be allowed  
19 to receive, or continue receiving, payments from ESAs.

**§18-31-7. Requirements for and rights of education service providers.**

1       (a) To be eligible to accept payments from an ESA, an education service provider shall:

2           (1) Submit notice to the treasurer that they wish to participate in the ESA Program;

3           (2) Provide parents with a receipt for all qualifying educational expenses;

4           (3) Agree not to refund, rebate, or share ESA funds with parents or ESA students in any  
5 manner, except that funds may be remitted or refunded to an ESA in accordance with procedures  
6 established by the treasurer;

7           (4) Certify that it will not discriminate on any basis prohibited by 42 U.S.C. §1981; and

8           (5) Agree to submit any employee who will have contact with ESA students to a criminal  
9 background check.

10          (b) This article does not limit the independence or autonomy of an education service  
11 provider or makes the actions of an education service provider the actions of the state  
12 government.

13          (c) Education service providers shall be given maximum freedom to provide for the  
14 educational needs of ESA students without governmental control.

15          (d) This article does not expand the regulatory authority of the state, its officers, or any  
16 school district to impose any additional regulation of education service providers beyond those  
17 necessary to enforce the requirements of the program.

**§18-31-8. Responsibilities of resident school districts.**

1       The resident school district shall provide an education service provider that has enrolled  
2       an ESA student with a complete copy of the student's school records, while complying with the  
3       Family Educational Rights and Privacy Act of 1974 (20 USC Section 1232 g).

**§18-31-9. Legal proceedings.**

1       (a) In any legal proceeding challenging the application of this chapter to a participating  
2       entity, the state bears the burden of establishing that the challenged action, rule, or requirement  
3       is necessary and does not impose any undue burden on education service providers.

4       (b) No liability arises on the part of the treasurer or the state or of any county school district  
5       based on the award or use of an ESA awarded pursuant to this article.

6       (c) If any part of this article is challenged in a state court as violating either the state or  
7       federal constitutions, parents of eligible and/or ESA students are permitted to intervene in the  
8       lawsuit for the purposes of defending the article's constitutionality. However, for the purposes of  
9       judicial administration, a court may limit the number of parents permitted to intervene or require  
10      that all parents file a joint brief, so long as they are not required to join any brief filed on behalf of  
11      any named state defendant.

3       by fiscal year 2019.

4       (b) No liability arises on the part of the treasurer or the state or of any county school district  
5       based on the award or use of an ESA awarded pursuant to this article.

**§18A-4-2d. Mathematics teacher incentive.**

1       (a) The Legislature recognizes that receiving quality math instruction is vital to a student's  
2 post-secondary success and that there is a shortage of certified math teachers to provide  
3 such instruction.

4       (b) To ensure that students are receiving the appropriate level of math instruction that will  
5 enable post-secondary success, the Department of Education shall develop or approve  
6 specialized mathematics courses and make the courses available to classroom teachers.

7       (c) Effective July 1, 2019, a classroom teacher who completes a specialized mathematics  
8 course established or approved pursuant to this section by May 1 of the fiscal year shall be paid  
9 a one-time salary supplement of \$2,000 from the Mathematics Incentive Program line item

11 Legislature. If the appropriations to the Department of Education for this purpose are insufficient  
12 to compensate all applicable teachers, the Department of Education shall request a supplemental

14 still insufficient to compensate all applicable teachers, each applicable teacher shall receive their

**§18A-4-5. Salary equity among the counties; state salary supplement.**

1       (a) For the purposes of this section, salary equity among the counties means that the  
2 salary potential of school employees employed by the various districts throughout the state does  
3 not differ by greater than ten percent between those offering the highest salaries and those  
4 offering the lowest salaries. In the case of professional educators, the difference shall be  
5 calculated using the average of the professional educator salary schedules, degree classifications  
6 B. A. through doctorate and the years of experience provided in the most recent state minimum  
7 salary schedule for teachers, in effect in the ten counties offering the highest salary schedules  
8 compared to the lowest salary schedule in effect among the fifty-five counties. In the case of  
9 school service personnel, the difference shall be calculated utilizing the average of the school  
10 service personnel salary schedules, pay grades A through H and the years of experience provided  
11 in the most recent state minimum pay scale pay grade for service personnel, in effect in the ten  
12 counties offering the highest salary schedules compared to the lowest salary schedule in effect  
13 among the fifty-five counties.

14       (a) The Legislature recognizes its constitutional responsibility to provide for a thorough  
15 and efficient system of education. To carry out this responsibility the Legislature enacted, and  
16 continues to update, as necessary, the public school support program as set forth in §18-9A-1, et  
17 seq. The public school support program is a non-discriminatory funding mechanism for financing  
18 the educational system in this state as it takes into account each county's specific characteristics,  
19 and ensures that all counties are provided equitable funding.

20       (b) The Legislature further finds that the purpose of the public school support program is  
21 not to deter counties from growing economically or from using county resources in a manner that  
22 best meets their specific educational needs and the desires of their citizens. To that end, counties  
23 must have the discretion and flexibility to use local county funds, not otherwise factored into the

24     public school support program, to provide the best education possible to their students, including,  
25     but not limited to, providing salary supplements to teachers.

26         (b) (c) To meet the objective of salary equity among the counties, as defined in subsection  
27     (a) of this section, on and after July 1, 1984, subject Subject to available state appropriations and  
28     the conditions set forth herein, each teacher and school service personnel shall receive an equity  
29     supplement amount as specified in sections two and eight-a, respectively, of this article in addition  
30     to the amount from the State Minimum Salary Schedules provided in those sections. State funds  
31     for this purpose shall be paid within the West Virginia public school support plan in accordance  
32     with §18-9A-1 et seq. of this code. The amount allocated for this supplement shall be apportioned  
33     between teachers and school service personnel in direct proportion to that amount necessary to  
34     support the professional salaries and service personnel salaries statewide under §18-9A-4, §18-  
35     9A-5, and §18-9A-8 of this code.

36         (c) State funds for this purpose shall be paid within the West Virginia public school support  
37     plan in accordance with article nine-a, chapter eighteen of this code. The amount allocated for  
38     salary equity shall be apportioned between teachers and school service personnel in direct  
39     proportion to that amount necessary to support the professional salaries and service personnel  
40     salaries statewide under sections four, five and eight, article nine-a, chapter eighteen of this code.  
41     In the event the Department of Education determines that the objective of salary equity among  
42     the counties has not been met, it shall include in its budget request for the public school support  
43     plan for the next school year a request for funding sufficient to meet the objective of salary equity  
44     through an across-the-board increase in the equity supplement amount of the affected class of  
45     employees.

46         (d) Pursuant to this section, each teacher and service person shall receive from state  
47     funds the equity supplement amount indicated in subsection (c), section two and subsection (f),  
48     section eight-a of this article §18A-4-2 and §18A-4-8a of this code, as applicable, reduced by any  
49     amount provided by the county as a salary supplement for teachers and school service personnel

50 on January 1, 1984.

51 (e) The amount received pursuant to this section shall not be decreased as a result of any  
52 county supplement increase instituted after January 1, 1984: *Provided*, That any amount received  
53 pursuant to this section may be reduced proportionately based upon the amount of funds  
54 appropriated for this purpose. No county may reduce any salary supplement that was in effect on  
55 January 1, 1984, except as permitted by sections five-a and five-b of this article.

36       System. Nothing herein shall prohibit the maintenance nor result in the reduction of any benefits

149          to the provisions of that section. These payments: (i) Are in addition to any amounts prescribed  
150          in the applicable State Minimum Pay Scale Pay Grade, any specific additional amounts prescribed  
151          in this section and article, and any county supplement in effect in a county pursuant to §18A-4-5b  
152          of this code; (ii) are paid in equal monthly installments; and (iii) are considered a part of the state  
153          minimum salaries for service personnel.

154                 (g) When any part of a school service person's daily shift of work is performed between  
155          the hours of 6:00 p.m. and 5:00 a.m. the following day, the employee is paid no less than an  
156          additional \$10 per month and one half of the pay is paid with local funds.

162          and paid entirely from county board funds.

163                 (j) A service person may not have his or her daily work schedule changed during the school

171          category of employment may be used if the alternate hourly rate of pay is approved both by the  
172          county board and by the affirmative vote of a two-thirds majority of the regular full-time persons  
173          within that classification category of employment within that county: *Provided, however*, That the  
174          vote is by secret ballot if requested by a service person within that classification category within  
175          that county. The salary for any fraction of an hour the employee is involved in performing the  
176          assignment is prorated accordingly. When performing extra duty assignments, persons who are

183 asbestos-related duties. Related duties required for asbestos removal include, but are not limited  
184 to, travel, preparation of the work site, removal of asbestos, decontamination of the work site,  
185 placing and removal of equipment, and removal of structures from the site. If any member of an

187 employment county, the daily rate of pay is no less than the minimum amount as established in  
188 the employee's regular employment county for asbestos removal and an additional \$30 per each  
189 day the employee is engaged in asbestos removal and related duties. The additional pay for  
190 asbestos removal and related duties shall be payable entirely from county funds. Before service

196 an aide is considered to be exercising the authority of a supervisory aide and control over pupils  
197 if the aide is required to supervise, control, direct, monitor, escort, or render service to a child or  
198 children when not under the direct supervision of a certified professional person within the  
199 classroom, library, hallway, lunchroom, gymnasium, school building, school grounds, or wherever  
200 supervision is required. For purposes of this section, "under the direct supervision of a certified  
201 professional person" means that certified professional person is present, with and accompanying  
202 the aide.

**§18A-4-9. Payment of teachers and other employees; withholdings.**

1               (a) Teachers and all other employees whose salaries or wages are payable out of the

2 school current fund shall be paid for their services by orders duly signed by the president and  
3 secretary of the board in accordance with the following provisions: Notwithstanding any other  
4 provisions of this chapter and chapter eighteen, the number of pays to be made during the school  
5 year to the various classes of employees shall be determined by the board: *Provided*, That the  
6 sum of such pays for any employee does not exceed the equivalent of an annual salary based  
7 upon 12 calendar months. In the event a teacher or other employee is not paid the full salary or  
8 wage earned in the fiscal year in which the work is performed, the unpaid amount may be paid  
9 during July and August of the following fiscal year. Adjustments for time loss due to absence may  
10 be made in the next paycheck following such time loss.

11           (b) The county board may withhold the pay of any teacher or employee until he or she has  
12 made the reports required by the board or the state superintendent.

13           (c) Effective July 1, 2019, no amount of an employee's pay may be withheld or deducted  
14 by the county board for the purpose of paying dues to an employee organization that provides  
15 representation, lobbying, or other employee-related services unless the employee within the last  
16 year has submitted a request for the withholding or deduction. Each county board shall establish  
17 procedures for submission of the request for the withholding or deduction.

18           (d) Accompanying the pay of each employee shall be an accounting of gross earnings,  
19 all withholdings and the dollar value of all benefits provided by the state on behalf of the employee.

**§18A-4-10. Personal leave for illness and other causes; leave banks; substitutes.**

1           (a) *Personal Leave.*

2           (1) At the beginning of the employment term, any Any full-time employee of a county board  
3 is entitled annually to accrue to at least one and one-half days personal leave for each  
4 employment month or major fraction thereof in the employee's employment term. Personal leave  
5 is accrued at the end of each pay period based on a ten month pay calendar or on the last workday  
6 for separating employees. Unused leave shall be accumulative without limitation and is  
7 transferable within the state. A change in job assignment during the school year does not affect

8 the employee's rights or benefits.

9 (2) A regular full-time employee who is absent from assigned duties due to accident,  
10 sickness, death in the immediate family, or life threatening illness of the employee's spouse,  
11 parents or child, or other cause authorized or approved by the board, shall be paid the full salary  
12 from his or her regular budgeted salary appropriation during the period which the employee is  
13 absent, but not to exceed the total amount of leave ~~to which the employee is entitled~~ has accrued.

14 (3) Each employee is permitted to use three days of leave annually without regard to the  
15 cause for the absence. Personal leave without cause may not be used on consecutive work days  
16 unless authorized or approved by the employee's principal or immediate supervisor, as  
17 appropriate. The employee shall give notice of leave without cause to the principal or immediate  
18 supervisor at least 24 hours in advance, except that in the case of sudden and unexpected  
19 circumstances, notice shall be given as soon as reasonably practicable. The principal or  
20 immediate supervisor may deny use of the day if, at the time notice is given, either 15 percent of  
21 the employees or three employees, whichever is greater, under the supervision of the principal or  
22 immediate supervisor, have previously given notice of their intention to use that day for leave.  
23 Personal leave may not be used in connection with a concerted work stoppage or strike. Where  
24 the cause for leave originated prior to the beginning of the employment term, the employee shall  
25 be paid for time lost after the start of the employment term, but not to exceed the total amount of  
26 leave the employee has accrued. ~~If an employee uses personal leave which the employee has~~  
27 ~~not yet accumulated on a monthly basis and subsequently leaves the employment, the employee~~  
28 ~~is required to reimburse the board for the salary or wages paid for the unaccumulated leave.~~

29 (4) The State Board shall maintain a rule to restrict the payment of personal leave benefits  
30 and the charging of personal leave time used to an employee receiving a workers' compensation  
31 benefit from a claim filed against and billed to the county board by which the person is employed.  
32 If an employee is awarded this benefit, the employee shall receive personal leave compensation  
33 only to the extent the compensation is required, when added to the workers' compensation

34 benefit, to equal the amount of compensation regularly paid the employee. If personal leave  
35 compensation equal to the employee's regular pay is paid prior to the award of the workers'  
36 compensation benefit, the amount which, when added to the benefit, is in excess of the  
37 employee's regular pay shall be deducted from the employee's subsequent pay. The employee's  
38 accrued personal leave days shall be charged only for such days as equal the amount of personal  
39 leave compensation required to compensate the employee at the employee's regular rate of pay.

40 (5) The county board may establish reasonable rules for reporting and verification of  
41 absences for cause. If any error in reporting absences occurs, the county board may make  
42 necessary salary adjustments:

43 (A) In the next pay after the employee has returned to duty; or

44 (B) In the final pay if the absence occurs during the last month of the employment term.

45 (b) *Leave Banks.*

46 (1) Each county board shall establish a personal leave bank that is available to all school  
47 personnel. The board may establish joint or separate banks for professional personnel and school  
48 service personnel. Each employee may contribute up to two days of personal leave per school  
49 year. An employee may not be coerced or compelled to contribute to a personal leave bank.

50 (2) The personal leave bank shall be established and operated pursuant to a rule adopted  
51 by the county board. The rule:

52 (A) May limit the maximum number of days used by an employee;

53 (B) Shall limit the use of leave bank days to an active employee with fewer than five days  
54 accumulated personal leave who is absent from work due to accident or illness of the employee;  
55 and

56 (C) Shall prohibit the use of days to:

57 (i) Qualify for or add to service for any retirement system administered by the state; or

58 (ii) Extend insurance coverage pursuant to §5-16-13 of this code.

59 (D) Shall require that each personal leave day contributed:

60                   (i) Is deducted from the number of personal leave days to which the donor employee is  
61   entitled by this section;

62                   (ii) Is not deducted from the personal leave days without cause to which a donor employee  
63   is entitled if sufficient general personal leave days are otherwise available to the donor employee;

64                   (iii) Is credited to the receiving employee as one full personal leave day;

65                   (iv) May not be credited for more or less than a full day by calculating the value of the  
66   leave according to the hourly wage of each employee; and

67                   (v) May be used only for an absence due to the purpose for which the leave was  
68   transferred. Any transferred days remaining when the catastrophic medical emergency ends  
69   revert back to the leave bank.

70                   (3) The administration, subject to county board approval, may use its discretion as to the  
71   need for a substitute where limited absence may prevail, when an allowable absence does not:

72                   (i) Directly affect the instruction of the students; or

73                   (ii) Require a substitute employee because of the nature of the work and the duration of  
74   the cause for the absence.

75                   (4) If funds in any fiscal year, including transfers, are insufficient to pay the full cost of  
76   substitutes for meeting the provisions of this section, the remainder shall be paid on or before  
77   August 31 from the budget of the next fiscal year.

78                   (5) A county board may supplement the leave provisions in any manner it considers  
79   advisable in accordance with applicable rules of the state Board and the provisions of this chapter  
80   and chapter eighteen of this code.

81                   (c) A classroom teacher shall be paid a bonus at retirement which is the equivalent of \$500  
82   for every 10 days of sick leave which he or she had accrued as of the effective date of his or her  
83   retirement. The bonus shall be paid from a line item established for the Department of Education  
84   for this purpose. If the appropriations to the Department of Education for this purpose are  
85   insufficient to compensate all applicable retiring teachers, the Department of Education shall

86 request a supplemental appropriation in an amount sufficient to compensate all retiring teachers.  
87 This payment may not be counted as part of the final average salary for the purpose of calculating  
88 retirement.

89       (d) The amendments to this section during the 2019 regular session of the Legislature  
90 shall be effective for school years beginning on or after July 1, 2019, and the provisions of this  
91 section existing immediately prior to the 2019 regular session of the Legislature remain in effect  
92 for school years beginning prior to July 1, 2019.

## **ARTICLE 5. AUTHORITY; RIGHTS; RESPONSIBILITY.**

### **§18A-5-2. Holidays; closing of schools; time lost because of such; special Saturday classes.**

1           (a) Schools shall be closed on Saturdays and on the following days which are designated  
2 as legal school holidays: Independence Day, Labor Day, Veterans Day, Thanksgiving Day,  
3 Christmas Day, New Year's Day, Martin Luther King's birthday, Memorial Day and West Virginia  
4 Day. Schools also shall be closed on any day on which a primary election, general election or  
5 special election is held throughout the state or school district and on any day appointed and set  
6 apart by the president or the Governor as a holiday of special observance by the people of the  
7 state.

8           (b) When any of the above designated holidays, except a special election, falls on  
9 Saturday, the schools shall be closed on the preceding Friday. When any designated holiday falls  
10 on Sunday, the schools shall be closed on the following Monday.

11          (c) Special classes may be conducted on Saturdays for pupils and by teachers and service  
12 personnel. Saturday classes shall be conducted on a voluntary basis and teachers and service  
13 personnel shall be remunerated in ratio to the regularly contracted pay.

14          (d) Any school or schools may be closed by proper authorities on account of the  
15 prevalence of contagious disease, conditions of weather or any other calamitous cause over  
16 which the board has no control.

17           (1) Under any or all of the above provisions, the time lost by the school closings may not  
18 be counted as days of employment and may not be counted as meeting a part of the requirements  
19 of the minimum term of one hundred eighty days of instruction. Except as otherwise provided by  
20 §18-5-45a, a school employee's pay per pay period may not change as a result of a school closing  
21 not being counted as a day of employment, and the employee shall be paid the same amount  
22 during any pay period in which a school closing occurs that the employee would have been paid
